WHEN IN DOUBT, WHAT?
WHEN YOU ASK FOR **PEABODYS' OVERALLS.** IF YOUR LOCAL DEALER SAYS HE HAS "SOMETHING JUST AS GOOD" COMPARE THEM. NOTE THE FIT, MATERIAL, WORKMANSHIP, AND YARDAGE; NUMBER OF POCKETS OF THE OVERALLS, ALSO ON THE COATS NOTE THE GAUNTLET CUFF, AND THE UNIFORM BAND COLLAR, AND THEN IF THE "JUST AS GOOD" GARMENT STANDS THE COMPARISON, BUY IT BY ALL MEANS. BUT MARK YOU, THEY WON'T STAND A CAREFUL COMPARISON.

WE ARE THE AGENTS FOR PEABODYS' GUARANTEED OVERALLS.

AROUND THE TOWN

Mr. J. B. Detwiler returned on Saturday from his visit east. Mrs. Detwiler will return a little later.

Mr. and Mrs. F. H. Schooley of the Acme News was presented with a daughter on Monday, March 27th.

L. A. Mott's Comedy Co. will appear at the Opera House on Thursday night. There promises to be lots of fun.

Croft. Newsome has sold the Crossfield Chronicle to C. Hathaway. Croft is now with the Strathmore paper.

Glenn Bros. are loading cars preparator, to shipment to Armstrong, B. C., where they will make their home in future.

J. F. Stevens, Alberta live stock commissioner, was a visitor in town on Tuesday. Mr. Stevens is looking after the live stock facilities at different points.

Mr. Geo. Stewart, who has made his home here for some years, has sold out his interests in Alberta and has gone to the sunny southland, Florida, where he has recently purchased some property.

The Ladies Aid of the Presbyterian church will hold their supper on Easter Monday night instead of Good Friday as announced before. The admission will be 50c. A short musical program will be rendered.

German services will be held in the Evangelical church on Good Friday morning at 10.30 a. m. Special Easter services will be held in the church on Sunday with a song service at night. Everybody will be made welcome at these services.

Mr. S. Umbach returned from a visit to his daughter, Mrs. H. Beckner, at Barnwell, Alta., east of Lethbridge, on Monday. Mr. Umbach greatly prefers this section of Alberta to that which he has just visited. He also states that they had about four inches of snow from the last snow storm.

The Didsbury baseball club is making considerable progress, the clubs beginning to form shape in the way of most of the players for the season being signed, the names of which will be announced later. The boys have sent to Toronto for suits, a gray and black striped, size 48 inches chest measure. We don't think this can be beat. Prospects are very favorable for a league to be formed soon.

Services in St. Cyprian's church on Friday, Saturday and Sunday as follows: Good Friday at 8 o'clock. Collection for the missions to the Jews Saturday, Holy Confirmation service at 8 o'clock. Sunday in the morning at 11 o'clock with administer of Holy Communion. Please note service on Sunday evening at 7 o'clock instead of 7.30. The Bishop of Calgary will preach. Collection for church debt and expenses.

THE BEST REMEDY

For Women—Lydia E. Pink-
 ham's Vegetable Compound

Belleville, Ont.—"I was so weak and worn out from a female weakness that I coincided to try Lydia E. Pinkham's Vegetable Compound. I took several bottles of it and I gained strength so rapidly that it seemed to make a new woman of me. I can do as good a day's work as I ever did. I sincerely bless the day that I made up my mind to take your medicine for female weakness, and I am exceedingly grateful to you for your kind letters, as I certainly profited by them. I give you permission to publish this any time you wish."
 —MRS. ALBERT WICKETT, Belleville, Ontario, Canada.

Women everywhere should remember that there is no other remedy known to medicine that will cure female weakness and so successfully restore you through the Change of Life as Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs.

For 30 years it has been curing women from the worst forms of female ills—inflammation, ulceration, dis- placements, fibroid tumors, irregularities, periodic pains, backache, and nervous prostration.

If you want special advice write for it to Mrs. Pinkham, Lynn, Mass. It is free and always helpful.

Magistrate—"You say you are innocent. How do you explain the fact that you were found near the scene of the robbery with the stolen property in your hands?"

Witness—"That's a puzzling one, me."

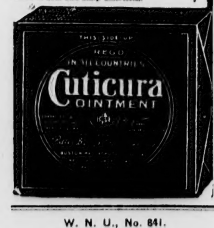

Cured Eczema and Dandruff

"I am pleased to inform you that I have been cured by Cuticura Soap and Ointment. Since I was a boy I have suffered with dandruff, not only from the itching but from its disagreeable appearance in a scaly form all over my head. I had to brush it off my clothes all day long. I used every kind of preparation supposed to cure dandruff, also soaps and shampoos, but it seemed to me that, instead of improving with these remedies, the dandruff increased, even my hair began to fall out and the result was that two months ago eczema developed on my scalp."

"I suffered so from this that as a last measure I thought I would try Cuticura Soap and Cuticura Ointment. They had the most gratifying result for I had used only one box of Cuticura Ointment and a single cake of Cuticura Soap when I was cured. The eczema and dandruff were gone and my head perfectly clear."

"I can assure you that so long as I live no other soap than Cuticura will be used by me and all those near to me. I will also add that I will always use Cuticura Ointment as a dressing for the hair. I feel that you should know of my cure and if you desire you may use this as a true testimonial which comes from a sufferer of thirty years standing. I will be happy to tell any one of my experience in order to assist those who may be suffering from the same disease." (Signed) J. A. Crevier, General Commission Merchant, 25 Pearl St., New York.

Cuticura Soap and Ointment affect the superficial and treat economical treatment for itching humors, eczema, dandruff, and all skin diseases. As in this case, a single use of Cuticura Ointment and a single cake of Cuticura Soap will cure the worst case of itching humors, eczema, dandruff, and all skin diseases. Cuticura Soap and Ointment are sold by all druggists and chemists, or by mail, 10¢ a box, 6 boxes for \$2.50, all dealers, or direct to the manufacturer, Cuticura Soap and Ointment Co., New York, N. Y.

NEW STRENGTH IN THE SPRING

NATURE NEEDS AID IN MAKING NEW, HEALTH GIVING BLOOD

In the spring the system needs toning up. To be healthy and strong you must have new blood, just as the trees must have new sap to re- new their vitality. Nature demands it, and without this new blood you will feel weak and languid—you may have twinges of rheumatism or the sharp, stinging pain in the joints. Often there are disgusting pimples or eruptions on the skin. In other cases there is a feeling of tiredness and a variable appetite. Any of these are signs that the blood is out of order—that the indoor life of winter has lessened your vitality. What is needed to put you right is a tonic, and in all the world of medicine there is no tonic can equal Dr. Williams' Pink Pills. These Pills actually make new, rich, red blood—your greatest need in the spring. This new blood drives out disease, clears the skin and makes weak, easily tired men, women and children, bright, active and strong. You can prove this by your neighbors for there is not a nose or corner in this great land where some weak, ailing man or woman has not been made well and strong by this great medicine. Mr. H. Wilson, Stonewall, Maine, says: "Some years ago I was run down, languid and depressed and felt as though I was only fit for the life of a scrap heap. A friend who had great faith in Dr. Williams' Pink Pills gave me a box. Before they were all used I felt some better, and this encouraged me to further supply, and it was not many weeks until I was again enjoying my former good health. I think Dr. Williams' Pink Pills a boon to every weak person."

Sold by all medicine dealers or by mail, post paid, at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

CURED THE WIFE AND HUSBAND TOO

GREAT WORK DONE BY DODD'S KIDNEY PILLS IN ONE QUEBEC FAMILY

Thomas Lauriault had Kidney Dis- ease and his Wife Bright's Disease and Dodd's Kidney Pills Made Them Both Well

Lac Gaspard, Que., (Special).—There is a world interest in the simple story of Madame Thomas Lauriault of this place. In her own words it is as follows:

"Dodd's Kidney Pills cured my husband of Kidney Disease and myself of Bright's Disease. We recom- mend Dodd's Kidney Pills to all who suffer from Kidney or Bright's Dis- ease."

This is a splendid example of the grand work Dodd's Kidney Pills are doing among the plain people of Can- ada. Kidney disease is the common- est of all ailments among those who have to work hard, because the kid- neys are the first part of the body to feel the wear and tear of heavy work. When the kidneys go wrong, the blood goes wrong, and the whole body goes wrong. Rheumatism, Dropsy, Diabetes and Bright's Disease are the usual results. Dodd's Kidney Pills cure these by simply curing the kid- neys.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal medicine. Hall's Catarrh Cure is taken or- dinarily, and acts directly upon the blood and mucous surfaces. It cures Catarrh in a most quick and reliable manner. It is prescribed by one of the best physicians in the country for such a case. It is composed of the best tonic known, combined with the best blood purifier, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh, and for Catarrh, Res- toration, J. C. HENRY & CO. Proprietors, Toronto, Ont. "He'll arrive," said the Democratic leader, "if you'll only give him time. He is like Dr. Thirly."

"Dr. Thirly was dividing up his sermon into its appropriate hours one Sunday morning when a member of the congregation shouted irascibly:

"'Meat, man! Give us meat!'"

"Well," said Dr. Thirly promptly, "hold on, then, till I'm done carv- ing."

A Pill That is Priced.—There have been many pills put upon the market and pressed upon public attention, but none has endured so long or met with so much favor as Parke's Vegetable Pills. Widespread use of them has attested their great value, and they need no fur- ther advertisement than this. Having firmly established themselves in public esteem, they now rank without a peer in the list of standard vegetable prepara- tions.

In Dread of Something

You Can Scarcely Tell What ---It May Be Hysteria, Insanity, Nervous Collapse.

DR. CHASE'S NERVE FOOD

When the nervous system breaks down you live in constant dread of something terrible about to happen.

Physical suffering cannot be com- pared to the mental agonies of the nervous wreck who fears that his mind may give way or that his body may be paralyzed.

In this condition you must suffer alone for friends cannot understand or sympathize with you. They tell you to cheer up or that it is only imagination.

You can only throw off this depression when the nerve cells are restored to health by such treatment as Dr. Chase's Nerve Food. Your digestive system has failed to supply proper nourishment to the nerves and you are compelled to seek aid from other sources.

It will take some patience and per- sistent treatment, but there is no way by which you can so certainly restore health and vigor as by the use of Dr. Chase's Nerve Food.

The best time to restore the nervous system is long before such a critical condition is reached. Such symptoms as headaches, sleeplessness, nervous indigestion, muscular weakness, loss of memory, failure of memory and power of concentration, irritability and discouragement tell of a failure of the nervous system and warn you of the approach of serious trouble.

**Reciprocity and
the Farmer**

(From the Canadian Courier.)

Last week the question of reciprocity and the manufacturer was discussed at some length, and an attempt was made to show exactly where the manufacturer would gain and where he would not gain. It was also pointed out that under the proposed arrangement seven-eighths of the goods which Canada has heretofore sold to the United States will enter that country free, and only one-eighth will be dutiable. Of the seven-eighths, the largest portion is agricultural produce or products of the forest, stream, and mine. Among these four items agricultural produce will probably bulk largest. It is, therefore, reasonable that the Canadian farmer should favor reciprocity, and that the United States should oppose it. Of course, all Canadian farmers are not in favour of it, and all United States farmers are not opposed to it. Nevertheless, the general statement stands that the Canadian farmer does not view reciprocity with the same apprehension as the United States farmer.

THE QUESTION OF WHEAT.

There is a common talk about the export of wheat to the United States, and much of this talk is inaccurate. It is doubtful if the removal of twenty-five cents a bushel, imposed by the United States Government on Canadian wheat, will greatly increase wheat exports to that country. For two years it has been possible to ship wheat to Liverpool through the United States in bond. It has also been possible for the American millers to import Canadian wheat, grind it into flour, and get a rebate of ninety-nine per cent. of the duty when that flour is exported. What reasonable ground, therefore, is there for believing that the export of Canadian wheat to the United States will be greatly increased?

In 1909 Canada only sold 25,000 bushels of wheat to the United States. In 1910 this was increased to 135,000 bushels. In 1910 Canada also sold to the United States 567,000 worth of flour. It will, therefore, be seen that United States prefers to buy flour rather than wheat. The duty on flour has been reduced from sixty to fifty cents a barrel, and there may be a further reduction at an early date. It is within the bounds of possibility that instead of exporting wheat, Canada may export flour to the United States in large quantities. Some of the Canadian millers do not surmise, but nevertheless, there is much to support it.

Those who understand the wheat trade most thoroughly believe that all the increase in the export of wheat will come in the lower grades. There are large quantities of "rejected" wheat for sale every season in the Canadian West, and the demand for it is so limited that the farmer is forced to take a discount of from eight to fifteen cents a bushel. It is in the class of wheat that the Canadian will probably benefit. The same wheat in the United States will bring within two to four cents of the normal price, because there is a great demand for it among the makers of flour. While not suitable for European trade, this rejected wheat is quite good enough for the ordinary purposes of the average miller, and there is no doubt that the United States millers will send their buyers through the Canadian West on bargain-hunting expeditions. Sometimes this wheat has been slightly discoloured by a heavy rain which occurred between harvesting and threshing, but otherwise, in weight and plumpness, it is quite equal to No. 1 hard. If the competition for this wheat increases, as it might naturally be expected to do, the western farmer will get six to ten cents a bushel more for it than he has been getting in the past.

**False Hair Carries
Germs**

Stories which have been circulated at different times of terrible diseases caught from the wearing of false hair are being brought pretty close to home at the present moment. Dr. J. E. Lallier of the Provincial Board of Health, is about to issue a Quebec statement to the effect that there is danger that the plague which is causing such fearful suffering and death in China may be brought into Canada by false hair. The officers of the health department are making inquiries at the local hair stores in order to discover what proportion of the wigs sold by local dealers come from China.

The men who conduct the hair business that they import the bulk of their goods from Germany, but they add that Chinese hair is also on sale here. It is claimed that most of the corpses to the morgues in the plague-stricken districts of China are minus pigtail, and the reason is that the hair has been taken by agents of the hair companies.

WILL NOT ARBITRATE

MINERS BELIEVE STRIKE WILL NOT LAST LONG

They Declare That Under No Circumstances Will They Arbitrate, and If Forced Into It by Lemieux Act, Will Let the Case Go By Default—Diplomatic Move Is Made by the Operators.

Fernie, B.C.—Summing up the situation Secretary Carter, "I do not believe the strike will last long. When the operators realize the strength there is behind us they will be ready to seek a compromise. We demand the advance of 12 1/2 per cent, and the continuance of present arrangements as to closed shop. Under no circumstances will we arbitrate, and if we are forced into it under the Lemieux act we will let the case go by default. If the advance we desire in wages means the price of coal will go up, let it go up. That matter will readjust itself when the government constitutes the commission which the British Columbia Federation of Labor is asking for, and investigates the cost of coal and in which the unfair profit comes in."

A report is current that some non-union men who have been working will ask for a conciliation board. Under the Lemieux act such men are entitled to work on a national basis.

J. D. McNeven, fair wage officer, has heard nothing of this and has had no communication with any man from anyone excepting his superiors. Under instructions from the department of labor he states that he is not reporting to the department the various authenticated moves or events in this drama of the coal strike.

The provincial police here report not an arrest in the Pass since the beginning of the strike. The situation is equally peaceful. The Italian band is making hay while the sun shines. Daily news is giving, while the moving picture shows for the first time in their history are putting on a national basis.

The action of the operators' executive board, taken at Frank, has yet to be interpreted. President Carter, at the time giving out that the operators stood on their last offer at the Calgary conference, has been very much intimated for publication that this meant the offer of arbitration. Another theory is that the operators are so sure of their ground that they are so sure that the offer meant was that of a 5.55 per cent advance in wages.

"The point charged was made perfectly clear," said James Ashworth, retiring operating manager of the Crow's Nest Pass company, "that the operators are now paying, and have paid since April 1, the new scale, involving a 5.55 per cent advance in wages. Now working in the mine on maintenance work. The new scale is now in force at all the mines. The Western Coal Operators' association. I think if this fact were known it might influence the operators in the direction of returning to work. This information has not been conveyed, of course, to the provincial executive board. The operators have simply communicated the notice to their own men, and the usual rule through the superintendent of the collieries."

If it is the "last offer" referred to by Mr. Spackert, presumably the operators' association is willing to concede the increase of 5.55 per cent, on the old day wage scale, and on contract prices, "except on pillars and lumbering," and demands the "lease providing that the usual rule be not discriminate against union men and that the union shall not discriminate against non-union."

Mr. Ashworth expressed the view that the backing of the international board was overrated. He said the papers, "Will \$1 a week from the strike funds support a man in this country?" he asked. "If it is not even real money, but provisions," he was not told what it will be, perhaps not better.

"Not more than 5.55 per cent, increase will be given under any circumstances," continued Mr. Ashworth, "and if we have to give more than the price of coal will go up. The reciprocity agreement has raised the duty on coal from 40 to 45 cents."

And if it is enacted, we will have that added burden. As it is, we have serious enough competition in our provincial market, which is across the line."

Winning Milk Unfit for Use
Winning—The milk supply for the most part, unfit for consumption unless pasteurized. The health officer reports that the milk is not fit to be drunk.

Lay Steel on Brazero Line
Edmonton—175 steelmen are on their way west from Winnipeg to start laying steel on the Brazero line of the C. N. R. out to the Peace River. Seventy miles of steel are to be laid on this branch.

New License Inspector
Lethbridge—F. G. Foster, formerly publisher of the Medicine Hat News, has been appointed license inspector for the new district in the southeastern part of the province.

Pincher Creek After Big Prize
Pincher Creek—The Pincher Creek board of trade is to go after the \$1,000 prize offered by the Thomas Shuganessy at the exhibition in New York for the best wheat raised in America.

GOVERNMENT FARMS IN NORTH

Experimental Station Being Established at Extreme Limit of Wheat Belt

Edmonton.—The dominion government will establish a demonstration farm this summer at Fort Simpson, on the McKenzie and Athabasca rivers, on the Slave river, on the northern boundary of Alberta. G. Card, Fort Smith, is now in charge of the farm at Fort Simpson and act as Indian agent at that point and is now in Edmonton, registered at the Royal George, gathering a full outfit preparatory to starting for the north about May 1, as soon as navigation opens on the northern rivers. Mr. Brahan, Hudson's Bay factor, of Fort Smith is now in charge of the farm in his family, and establishing his farm on a satisfactory basis. Fort Simpson, where the first farm will be started, is just south of latitude 62, just past where the Slave river empties into the McKenzie. It is of present the known northern limit of wheat growing in Canada, and it is the purpose of the department of the interior to establish to what extent agriculture can be carried on with little success in these northern latitudes.

It will be Mr. Card's business to act as Indian agent, and he will make an effort to bring into the tribe the Slave, Dog-Ribs and other tribes. Indian agents have until now been outside the pale.

NEW ANGLA-JAPAN TREATY

Concessions by Japan to British Commercial and Industrial Interests Are Considerable

London.—The text of the Anglo-Japanese treaty is published here. Considering England as a nation without a tariff and therefore with nothing to offer Japan in concessions by Japan to British commercial and industrial interests are considerable.

Japan has granted a reduction varying from 12 to 30 per cent, upon a large number of British imports. The tariff on Japanese goods is still much higher than in the old tariff. Great Britain has broken down the tariff on the lease of Japanese land by Britons, the treaty providing that the subjects of each power are free to lease land in either country.

The treaty is to be operative for twelve years from July 1st next, but may be extended for another twelve years by mutual agreement.

The phraseology of the treaty contains an implication which is apparently unimportant, but which is of great importance, namely, that free trade is not necessarily a permanent principle. The treaty is not a permanent one. While there is nothing in the treaty that can be interpreted as an intention to add to the children of the treaty covers such an eventuality.

Alberta Buffalo Increasing Rapidly

Edmonton.—Edw. Ellis, superintendent of Wainwright buffalo park, in his annual report to the Dominion parks commission gives the census of animals living in the park at the present time as 600 buffalo, 7 elk and 3 antelope, a total of 605. During the year 110 buffalo were added to the herd by natural increase. The loss during the same period was but seven. In the year there were 1,500 visitors to the park. The park is owned by the Dominion, and is located at Banff 24, which makes the total number of bison in captivity in Alberta 85.

Preparing Fuel Space

Fort William.—Anticipating by far the heaviest rush at this port ever experienced as a result of the strike in the coal mines, the Dominion Pacific has put to work seventy men clearing the ground near their present station. It is estimated that an addition of ten thousands of tons of fuel space will be cleared from the present shed. The tracks connecting the new site will be laid shortly.

Invest Five Millions

Calgary.—"We have invested a million in the three western prairie provinces. This may be increased greatly, perhaps up to five millions," says Edward Bellie, Canadian manager of the Canadian City and Town Properties, Ltd., of Liverpool, England. This firm is spreading its money over the cities and larger towns of the west and is building up a large number of holdings so as to immediately bring them into the list of revenue producing securities.

Big Nurseries in Alberta

Lethbridge, Alta.—Archie Mitchell, land agent of the Dominion Forestry branch at Indian Head, and consulting parks superintendent for Calgary, has just started a company, including the most prominent agriculturists of Western Canada, establishing large nurseries at Cochrane, near the head of Lethbridge, and Lacombe. The company is called the Mitchell Nursery company, limited.

Organized Insult by British Unionists

London.—The debate on the veto bill from time to time produces moments in the house of commons. Such an occasion arose recently, when Lord Hugh Cecil's reckless tongue lashed the Radicals to fury. Premier Asquith, who is indisposed, was absent from the house, and Winston Churchill was acting as the government leader.

CANADA AND EMPIRE

RIGHT OF CANADA TO MOLD ITS NATIONAL DESTINY

The Fundamental Principles of the British Empire Leaves Canadians Absolutely Free to Make the Proposed Reciprocity Agreement—Important Questions for the Future.

London.—The Morning Standard, discussing Lord Selkirk's speech at West Ham regarding reciprocity with the United States, says that Britain recognizes unreservedly the right of Canadians to mold their own national destinies, according to their own consciences. The fundamental principles of the British empire left the Canadians absolutely free to make the proposed agreement, not to make it. The British empire has already been in force with the United Kingdom, that the idea of imperial commercial union would have had the hands of Canada against the United States was lawless, for if mutual preference had existed and Canadians wished to make a reciprocity convention with the United States, they would have been at liberty to do so.

Canada and the Mother Country would then each have chosen deliberately, and would claim certain advantages to each other in obligations, and it would be in the power of either to alter the terms of the contract whenever it pleased.

The proposed agreement between Ottawa and Washington was on an entirely different footing. It was not a contract, but a treaty, and under any arrangement of this nature the British empire would be curtailed by its majesty's government, and it would be within the next two months other states under the most favored nations clauses.

Canada has always declined to accept the British interpretation of these clauses. Every time the market of Canada will be one of the largest in the world, and that of Australia will be even larger. The question was whether these great and growing Anglo-Saxon populations were to be supplanted by the children of other peoples. The policy of imperial preference was the only one to supply a satisfactory answer.

Demand Withdrawal of U. S. Troops

Washington.—A resolution, asking for the withdrawal of United States troops from the border of Mexico and for the submission to Congress of the Mexican situation, was introduced in the house recently by Victor L. Dillingham, a Republican congressman from Milwaukee.

Mr. Berger referred to the despotism and cruelty of the Mexican governing class, which he says have loaded the people of that country into the hands of the United States. He made, says the resolution, to evade the United States, but the presence of the United States on the border is being used by the Mexican ruling interests to intimidate revolutionists.

Political Issues Blind Canada

London.—Archibald Colquhoun, the well known journalist, speaking here, said that the United States has been a power, said that in the Pacific Australia's naval policy was capable of being used by the United States, like Canada, by the jarring forces of nationalism and imperialism. He said that the United States made Canada blind to certain obvious dangers. It should be the aim of the British empire to secure a permanent intercourse between Canada and Australia.

Alberta Telephone Lines

Strathcona, Alta.—Provincial telephone lines will start at once from this city on an undertaking of great importance to the long distance of importance in Edmonton, Strathcona, Calgary, and Lethbridge. This contract will be the extension of a through long distance wire to serve these cities alone. The present lines are connected with all the substations in town. Sixty expert linemen will be employed on the work for the next two months.

Mounted Police Patrol Missing

Edmonton, Alta.—Word has been received here that the mounted police patrol in charge of inspecting the cattle ranches in the north-west, which left on the annual patrol to Dawson has disappeared. The patrol was last heard of some time ago, but no word has been received of them. One explanation may be that the patrol has been captured and gone up to the Porcupine to the ranches in far northern British Columbia.

Lord's Day Alliance Appoints Sec'y.

Toronto.—Rev. C. H. Hardesty, of Red Deer, has been appointed secretary for Alberta and British Columbia by the executive of the Lord's Day Alliance. The work has increased to such an extent as to demand the official attention of one man.

Railway Extensions in West Out Grown

Toronto.—Sir William Mackenzie is now devoting his attention to the west, owing to the increased cost of steel.

SIR J. WARD AND IMPERIALISM

He Does Not Believe in a Central Imperial Government of Affairs

Winnipeg.—Sir Joseph Ward, premier of New Zealand, and Dr. J. A. Macdonald, editor of The Toronto Globe, addressed the Canadian club of Winnipeg recently, the attendance being the largest in four years. Sir Joseph discussed imperialism and autonomy, declaring that while he was strongly imperialist, that he did not intend to suggest, as had been credited to him, a central imperial court, for affairs of the overseas dominions, but, he said, he believed each of the self-governing overseas dominions should be prepared to undertake increased burdens for the empire's defence.

Dr. Macdonald, discussing the "daughter in my mother's house, mistress in my own" attitude of Canada, said he was recently accosted by a prominent citizen of the United States who expressed surprise at the great loyalty of Canada to Great Britain, which seemed to increase with her independence.

Referring to the relations between Canada and the United States, Dr. Macdonald said the Canadian duty was to stand as a band between the United States and the British empire, the United States of America. A phrase from Champ Clark, spoken at the dinner, was received with cheers:

"All I know of Canada is that all the good things of my constituency are moving up there."

170 NEW TOWNS

Announcement Was Made That the C.P.R. Will Put on Fifty

Winnipeg.—One hundred and seventy new towns will be born in western Canada this year. This will be an advance of practically one every two days, which is very rapid, even in these days of rapid developments.

The announcement was made on March 16 that the C.P.R. would put on fifty new towns this year, and would reduce the railway's rate to put on twenty-four new towns and the C.N.R. ninety-six.

These new towns will be surveyed, and a few of them will be divided into lots. The C.P.R. and G.T.P. have named all of their new towns, but only a few of those on the C.N.R. have been given a handle, although they are located and surveyed. A decision in regard to names for all towns will be made within the next two months.

In a few of these places the pioneer merchants are beginning to struggle, but the majority of them are as yet virgin prairie, with only the rows of stakes indicating the future habitation of man.

Hundreds Coming From the South

Lethbridge.—That settlers are coming by hundreds already, and will continue to come in numbers, is what Montana, Nebraska, Wyoming and adjoining states is the statement of W. E. Clark, chief of the survey for the province of Alberta, at Great Falls, Mont. The people down there, he said, are not afraid of anything, and are not afraid of another dry year.

There are a great many who would leave if they could sell out. Since he has been at Great Falls seven weeks, Mr. Clark says he has sent out a great many people to the province of Alberta. The Dominion government has an office at Great Falls, and he is getting a lot of people also.

A Small Mutiny in Portugal

Lisbon.—Discontented because of new regulations in the army, the workmen employed in the Arsenal mutinied recently. They seized a tug and steamer, and the governor Gen. Galvies and asked protection, but were driven off. Later they attempted to force their way into the ministry of marine. The republican guard and marines who were hastily summoned, quelled the revolt and occupied the Arsenal.

The Ozar Sharply Criticized

St. Petersburg.—The council of the empire, for the first time in its history, adopted an important resolution attacking the government by a vote of 15 to 52, and sharply criticized the use of force to suppress the revolution. The government, while maintaining the Zemstvo bill, one senator affirmed that a dangerous precedent was being set, while another said the government's action in the matter had shaken the trust of the people in the emperor's word.

New Indian Agencies

Edmonton.—J. A. Markel of the Indian department is now in the process of arranging for the opening of two new agencies in the far north on the McKenzie river. This is in accordance with the new treaty consummated with the McKenzie district Indian last year. The agencies are to be located in the far north as the Great Slave Lake.

Will Not Discuss Reciprocity

Lethbridge.—The speaker is requested to express his opinion on the reciprocity agreement, Sir Thomas Shuganessy says he has no objection to it, but he does not wish to discuss it. He says the C.P.R. does not as yet contemplate a reciprocity agreement between Canada and the West Indies.

Grant to Edmonton

London.—The archbishop's fund has granted a thousand pounds to the new bishopric at Edmonton, Alta.

THE SUNDAY SCHOOL

LESSON III—SECOND QUARTER, FOR APRIL 16, 1911.

Text of the Lesson, John, ix, 1-18, Memory Verses, 15, 16—Gospel Text, Luke, xiv, 34—Commentary Prepared by Rev. D. M. Stearns.

We have the choice this week of a lesson on John, the boy king, and a resurrection lesson, and as next week we shall have another lesson on John, we choose the Easter lesson for this week. The resurrection of Jesus from the dead is in many respects the greatest topic in the Scriptures, for if Christ be vain, there is no forgiveness of sins, and no one is saved (1 Cor. xv, 14, 17, 18).

His great announcement includes His perfect life in a mortal body. His death in our stead bearing our sins. His resurrection from the dead all of which may be included in the saying, "Thou precious blood of Christ" (1 Pet. i, 19). At present, as our great high priest, He is at the right hand of God, for us, and He will come again to receive us back to His Father, and to give us His Kingdom of peace and righteousness on this earth.

That the Messiah of Israel, the great King, should be a man was plainly foretold in Gen. ix, 27, 28, 36. It is elsewhere, and foretold in Isaac, and Joseph and Jacob as well as in the two Testaments, and the two Testaments, was also foretold in Gen. ix, 15; 11 Sam. vii, 13, 16; Isa. ix, 7, 11; 11, 10; 16, 5; 19, 4; 32, 1; 40, 1; 49, 6; 52, 7; 54, 1; 55, 1; 56, 1; 57, 1; 58, 1; 59, 1; 60, 1; 61, 1; 62, 1; 63, 1; 64, 1; 65, 1; 66, 1; 67, 1; 68, 1; 69, 1; 70, 1; 71, 1; 72, 1; 73, 1; 74, 1; 75, 1; 76, 1; 77, 1; 78, 1; 79, 1; 80, 1; 81, 1; 82, 1; 83, 1; 84, 1; 85, 1; 86, 1; 87, 1; 88, 1; 89, 1; 90, 1; 91, 1; 92, 1; 93, 1; 94, 1; 95, 1; 96, 1; 97, 1; 98, 1; 99, 1; 100, 1.

When He was on earth in His human body, He was crucified on a cross, and death and resurrection in such passages as John ix, 1-18; Matt. xii, 40; Luke xiv, 34; 1 Cor. xv, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

He was crucified on a cross, and death and resurrection in such passages as John ix, 1-18; Matt. xii, 40; Luke xiv, 34; 1 Cor. xv, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

He was crucified on a cross, and death and resurrection in such passages as John ix, 1-18; Matt. xii, 40; Luke xiv, 34; 1 Cor. xv, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

He was crucified on a cross, and death and resurrection in such passages as John ix, 1-18; Matt. xii, 40; Luke xiv, 34; 1 Cor. xv, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

He was crucified on a cross, and death and resurrection in such passages as John ix, 1-18; Matt. xii, 40; Luke xiv, 34; 1 Cor. xv, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

He was crucified on a cross, and death and resurrection in such passages as John ix, 1-18; Matt. xii, 40; Luke xiv, 34; 1 Cor. xv, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

He was crucified on a cross, and death and resurrection in such passages as John ix, 1-18; Matt. xii, 40; Luke xiv, 34; 1 Cor. xv, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

Constipation brings many ailments in its train and is the primary cause of much sickness. Keep your bowels regular, madam, and you will escape many of the ailments to which women are subject. Constipation is a very simple thing, but like many simple things, it may lead to serious consequences. Nature often demands a little assistance and when Chamberlain's Tablets are given at the first indication, much distress and suffering may be avoided. Sold by dealers everywhere.

THIN HAIR A LIBERAL OFFER

When the hair thins out on the top of the head and the bald spot is getting ready to appear in public, don't get discouraged or irritated. Just go to your druggist and ask for Parisian Sage hair tonic. He will charge you for a large bottle but if it does not cause hair to grow where the hair is thinning out nothing on this earth will.

And we want to say to everybody, man, woman and child, that you can have your money back if Parisian Sage isn't the best hair grower, hair saver, hair beautifier, and antidandruff cure on the market today.

It stops itching, scalp, and falling hair and makes hair grow thick and abundantly. All druggists everywhere sell Parisian Sage a product from the Gilex Mfg. Co., Fort Erie, Ont. See that the girl with the sun burn hair is on every bottle. Sold and guaranteed by H. W. Chambers.

Some of Edison's Predictions

Thomas A. Edison, in an interview published in the February number of the Cosmopolitan magazine, predicts the time is not far distant when inventors will have made possible the following:

Cloth, buttons, thread, tissue paper and pasteboard will be fed into one end of a machine, and suits of clothing, packed in boxes, will come out of the other.

Steel will replace wood for making furniture. The cost of steel furniture is only one fifth that of wood and steel furniture is very light, because so little of the steel is required. It can be stained in perfect imitation of any wood color.

Nickel will be used instead of paper for books. A sheet of nickel one twenty-thousandth of an inch thick is cheaper, tougher, and more flexible than an ordinary sheet of book paper. It will also absorb printers ink. A nickel book two inches thick would contain 40,000 pages. It would weigh only a pound, and the cost of the nickel pages would only be \$1.25.

Huge farming implements driven by electricity will replace the present agricultural tools. The future farmer will be a soil chemist, a botanist and an economist. He will perform his present manual work at a seat beside a push button and some levers.

The most interesting of Mr. Edison's predictions is that the old dream of transmutation of metals is certain to come true sooner or later, and a way will be found to manufacture gold. The probability that the way to manufacture gold will be discovered sooner or later causes Mr. Edison to believe the present financial system of the world will be changed. The time is coming, he thinks, when not only will issue gold as money, because anyone will be able to manufacture it.

Concrete Sidewalks are Safe, Sightly and Everlasting

LUMBER used in damp places and on wet ground—as, for instance, in walks—lasts a very short life. It requires almost constant repairing and, in a few years, needs replacing.

Concrete, on the other hand, improves with age, and the very dampness which destroys lumber calls out the best qualities of the cement by making it harder and harder—until neither time nor traffic can affect it.

The best of wooden walks keep getting out of repair and are a continual menace to life and limb. They are also a frequent source of expensive doctor bills and lost time. Then again, they are likely to eat up the original cost

in repairs before they are replaced. Concrete walks are slightly, everlasting and safe. They cost less to build and need no repairing nor painting.

Write for our free book, "What the Farmer Can Do With Concrete."

It tells in plain, simple language, how you can save money on farm construction by using cement for Barns, Dairies, Foundations, Fence Posts, Troughs, Feeding Floors, Hitching Posts, Stalls, Silos, Stairs, and so forth.

The Book is well illustrated with photographs, plans and diagrams. Fill out the coupon or send a postal note to address it to

Changes in Bank ing Staffs

A change has been made in the Union Bank staff in Didsbury. As is well known Mr. F. N. Ballard resigned his position as manager of the bank some time ago and the resignation took effect this week. Mr. Ballard has held this position for the last eight years and has been associated with all that has helped to bring Didsbury up to its present high standing, consequently he will be missed to a great extent since he is going to make his home in Edmonton in the near future.

Mr. T. W. Cuncannon, who has been manager of the local branch of the Traders Bank for about two years, has severed his connection with that bank and has been appointed manager of the Union, which will meet with the approval of the banking public as Mr. Cuncannon during his two years residence amongst us has made many friends.

Mr. McPherson, who was manager of the Traders for a few months before Mr. Cuncannon's transfer to Didsbury, has again been transferred to the local branch of the Traders.

Burned to Death

A terrible disaster on a lonely homestead in 1-10, 35 miles east of Cochrane along the boundary line, in which three of the four children of Mr. and Mrs. Oran Brooks were burned to death. The fourth child, a little baby, is seriously burned and Mrs. Brooks is so badly burned that she may not recover.

About 7 o'clock Saturday evening the eldest child, a boy 12 years of age, was making a fire in the kitchen stove. To hurry the fire along he made the oft-repeated mistake of pouring kerosene on it from the can. There were evidently live coals in the stove, for an explosion immediately followed. In a second the house was a mass of flames.

In spite of the frantic efforts of the mother to get the children out, three of them were burned to death. The mother was terribly burned, so badly that if she does not die from the injuries and shock, she will likely lose both her hands. She saved her baby, but it too was very seriously burned.

The nearest neighbor, who lived across the boundary, saw the blaze and immediately hurried to the scene. But by the time he got there the house was a mass of ruins. He hurried the mother and surviving child over to his home where every possible care was taken of them. He returned and got the charred remains of the three children from the small pile of embers that alone remain of the homesteader's dwelling.
